Managment

- Guided and organized the activities of my 8+ people team team made up of students both men and women of different disciplines.
- Was part of the group of people who decided how our project (Argentinian Congress for Industrial Engineering Students and related careers), guided an coordinated meetings, public talks and events.

SOME OF MY COURSES

 Certifications

I AM...

Persistence & Mindset

I never leave halfway what i'm doing or satisfy with the bare minimum

Healthy Competitivity

I try to surpass myself each time I come across a known challenge, and I try to stimulate both teamwork and competition in my work groups.

NASA Space Apps

Finalists for DUQ Method

Love doing Sports

Football, Tennis & Karate are my favourite sports

Something I loved doing

I was Assistant Professor in the subject Geometry for two years straight. I learned a lot in what respects to teaching, listening, and being patient and realizing that each person learns and understands in a different way. Moreover, I made several YouTube videos explaining how to use a graphing tool, called geogebra, so as to promote the usage of technology.

STRENGTHS

Hard-working

Persuasive

Organized & Leader

Fast Learner

Python Jr.

Proyect Management (PMI) & Agile

JavaScript Jr.
